Report of Fire Dept.

Orland, Me., Feb. 10, 1949.

Greetings to the Voters and Taxpayers of the Town of Orland:

I wish to extend my thanks and appreciation for the progress that has been made during the year of 1948. May 1949 bring greater success.

It was recommended by vote of the Fire Department that the town raise \$2,500 for equipment and expenses for the Fire Department for the following year.

Respectfully submitted,

R. E. HARPER, Chief.

Report of The Superintendent of Schools

To the Superintending School Committee and Citizens of Orland:

It is needless for me to again point out the need of the schools. The committee, appointed at the last annual meeting, after making a survey made a very comprehensive report. It must be apparent to every citizen of Orland that something must be done. The number of children in each grade in each school is listed here in order for you to have a better picture of the situation confronting us in September.

Number of pupils in schools, 1948-1949:

School	1	2	3	4	5	6	7	8	Total
Grammar					13	11	9	11	44
Primary	21	9	17						47
Crane's	4	1	7	18	4	1	4	1	40
East	7	6		9	6	1	4	6	39
North	3	2	2	2	2	1			14
								Total	184

Sub-primary was suspended for this year.

Approximately 30 to enter in September, 1949.

The suspension of the sub-primary grade relieved the situation for only a year. This grade should be offered to the children just as soon as possible for in many cases it will mean a loss of a year of school so later when attending high school they will be a year older than others in their class.

The teachers are doing exceptionally well considering the number of grades and children in their schools. It is impossible in a school of four to eight grades with forty children for a teacher to carry on a suitable educational program.

The crowded condition on one of the buses must be corrected immediately. There are several solutions—such as employing an additional person with a panel truck to assist the present conveyance, another is to increase the pay sufficient to enable an individual to purchase a suitable bus. The most economical solution is for the Town to purchase a bus and employ a driver. The present Equalization Law provides for the State to reimburse the Town 10% per year of initial cost for five years or one-half of the cost.

REPAIRS

The interior of the Grammar and East Orland buildings were completely redecorated. The other buildings were cleaned thoroughly and necessary repairs made. One side of the roof of the Grammar school building was shingled. A vestibule was built at the Primary school building to protect the room from the cold. Mr. Johnson has taken particular care to have the buildings banked, or at least protected from drafts as much as possible. It is a decided improvement to have adults as janitors for three of our buildings.

Report of Public Health Nurse

To the Selectmen of the Town of Orland, Maine:

I hereby submit a brief report of services rendered the town of Orland, Maine, by the Hancock County Tuberculosis and Health Association, for the period January 1, 1948, to December 31, 1948.

During the past year thirty visits have been made to the town, at which times the Orland Primary, East Orland, Crane's Corner, and the Orland Grammar schools have been visited for the purpose of giving classroom inspection, checkup of the seven-point pupils, and to give individual inspections to pupils absent when the annual inspection was given.

The School Nursing and Health Education program continues much as before with matters primarily arising out of public educational health and nursing service problems. Entering children and those in the third, sixth, and ninth grades received routine physical examinations by a physician. The nurse is only qualified to give the inspection and to follow up remedial defects and corrections needed. We hope in the future that every child may have this technique. Many are now having such, but there are many others, due to the family budget, who have not been able to have it.

The State Division of Tuberculosis Control has sponsored two Diagnostic Chest X-ray Clinics during April and October for Hancock County patients. These are held at the Ellsworth City Hall and are free to all. One patient attended from Orland.

The annual physical inspection has been given all pupils in the four schools and consisted of the routine weighing and measuring, the Snellen test for vision, the whisper test for hearing, inspection of the teeth, throat, scalp and for postural defects, the skin for rashes and sores and for personal cleanliness as well as for infectious diseases. The results are as follows:

No. pupils who have defective vision	7
No. pupils who have inflamed eyelids	2
No. pupils who have defective hearing	1
No. pupils who have decayed teeth	75
No. pupils who have abnormal throats	8
No. of pupils 10% or more underweight	3
No. of pupils 20% or more overweight	5
No. of pupils with swollen glands	1
No. of pupils biting fingernails, nervousness	11

Of the 152 pupils inspected 95 were found to have remedial defects, 57 eligible to qualify for the seven-point.

Since previous inspections four have had vision correction, 48 dental and 28 pupils have had their tonsils and adenoids removed in the last few years.

In closing, we wish to express our thanks and appreciation to all who have contributed to the service, for without their help we could not carry on.

Respectfully submitted,

Hancock County Tuberculosis & Health Ass'n.

WINIFRED L. DUNPHY, R. N.,

Public Health Nurse.
